

Probability (1)

Probability Using a Spinner

- 1) What is the probability of the spinner not landing on 1 or 4 ? _____
- 2) What is the probability of the spinner landing on 2 or 4 ? _____
- 3) What is the probability of the spinner not landing on 1 ? _____
- 4) Do you have an equal chance of landing on either 1 or 2 ? _____
- 5) What is the probability of the spinner landing on 2 or 3 ? _____
- 6) What is the probability of the spinner landing on 3 ? _____
- 7) What is the probability of the spinner landing on 1 ? _____

- 8) What is the probability of the spinner not landing on A or C ? _____
- 9) What is the probability of the spinner not landing on B or E ? _____
- 10) What is the probability of the spinner not landing on B ? _____
- 11) What is the probability of the spinner not landing on C ? _____
- 12) Do you have an equal chance of landing on either C or E ? _____
- 13) What is the probability of the spinner landing on C or E ? _____
- 14) Do you have an equal chance of landing on either B or E ? _____

Probability (2)

What is the probability of throwing a :

- 3
.....
- 7
.....
- Even Number
.....
- Prime Number
.....
- Factor of Six
.....
- Less than 4
.....

Probability (3)

1. If one card is picked at random from a pack of 52 playing cards what is the probability that it is :
 - a) a King
 - b) the ace of spades
 - c) A heart.

2. A cash bag contains two 20p coins, five 5p, four 10p coins, three 2p coins and three 1p coins. Find the probability that the one coin selected is:
 - a) a 10p coin
 - b) a 2p coin
 - c) a silver coin

3. A bag contains 5 green balls, 2 red balls and 4 yellow balls. One ball is taken out at random. What is the probability that it is:
 - a) green
 - b) red
 - c) yellow
