## How to Be a Good Babysitter,

1. Think about being a helper in a home while the parents are there, talk to other people who do babysit, and read about babysitting on the Internet and in books.
2. If you did not know about allergies, you might feed a child something that would make him or her very sick. If you did not know what a child was afraid of, you might do or say something that would make him or her afraid.
3. In a list explaining how to do or make something, the ideas would be in the order they need to be done. The order is important. In this text, the order is not important. The points in the list could be written in any order.
4. The author's point of view is that babysitting is a great responsibility and it is important to know how to do the job well. The author gives tips on how to do the job well. In the tips, the author talks about responsibilities and how important they are.
5. The author means that keeping another person safe, healthy, and happy is a big job. It is a great responsibility. Maybe not everyone is ready to do all those things.
6. The text is opinion. It is the author's ideas about babysitting and how to be a good babysitter. Some people might not agree with some of the author's ideas. There are no facts that are true and that everyone would agree on.

2 28 papers are delivered on Sunday.

3 12 possible outfits

Slacks	Shirt
Blue	White
Blue	Yellow
Blue	Green
Black	White
Black	Yellow
Black	Green
Tan	White
Tan	Yellow
Tan	Green
Grey	White
Grey	Yellow
Grey	Green

4 John estimated by giving the answer to the nearest hundred. Betty gave the answer to the nearest ten.

5 Solution: 30 lbs is the other sixth which means every other sixth must be 30 lbs as well.

$$6 \times 30 \text{ pounds} = 180 \text{ pounds}$$

6  $6x - 14$

7 Answer:  $484 \text{ ft}^2$ . The corner piece is  $5 \times 5$  or  $25 \text{ ft}^2$ . The rest of the new space is then  $220 \text{ ft}^2$ . Each small added rectangle must be  $22 \times 5$ . The square is  $22 \times 22$ .

8 The answer is  $3 \frac{11}{12}$ .

9 The answer is 3.  $5 + 3^2 = 32$

10  $\frac{3}{8}$

11 Bill owns  $\frac{1}{8}$ , Rasheed owns  $\frac{2}{8}$ , and Juan owns  $\frac{5}{8}$ .

12  $8x + 24$        $15.25 \times 40 \text{ hours} = 610.00$

$$\frac{1}{4} \text{ of } 610 = 152.50$$

$$\frac{1}{5} \text{ of } 610 = 122$$

335.50 is left.

13

Apples	Cost	Pears	Cost	Total Cost
5	\$1.25	3	\$1.05	\$2.30

14 60 possible combinations

15  $3a + 5$

16 Perimeter = 58 meters  
Area = 66 square meters

17 24 servings

18 He babysits for 9 hours in a week.

19 Perimeter =  $6x$   
length = 24 inches  
width = 12 inches

20 7:45 a.m.
